

GARNER

The Emergency Response Company

How Will You Handle A Mass Depopulation?

GARNER

ENVIRONMENTAL SERVICES, INC.

* ISO 9001-2000 Certified

Don't expose your personnel.

Let Garner's highly-trained emergency response professionals meet your diseased animal response demands.

***U.S.D.A. Approved
Response Contractor***

Garner Environmental Services was the first contractor to provide a "turn-key" response to an avian influenza incident for the United States Department of Agriculture (USDA). The incident occurred in July of 2007 near Mount Jackson, Virginia. Trained Garner personnel managed all aspects of the incident including humane depopulation, disposal through composting and facility cleaning/disinfecting.

Garner can provide these same professional, safe and efficient services for you, including:

- **Rapid Response Teams**
- **Equipment That Performs to USDA-APHIS Standards**
- **Disposal/Composting Services**
- **Facility Cleaning/Disinfection**
- **Emergency Plans**
- **Consulting**
- **Training**

For complete information on our turn-key services please contact Mikie Sopczak or Brian Murphy at 281-930-1200 or toll-free at 800-424-1716.

***ISO 9001-2000 Certified**

Class A foam is used for fast, humane depopulation.

All carcasses are fully composted and monitored to an approved temperature.

A thorough cleaning/disinfection process prepares the facility for re-use.
